## 👤 Professional Summary

Computer Science student with a strong interest in Front-End Development, especially using React.js. Completed a Full-Stack Development course with a solid understanding of both frontend and backend concepts. Passionate about building responsive and user-friendly web applications, and eager to gain real-world experience in a structured, team-based environment.

## 🎓 Education

### Bachelor of Computer Science

06/2026

Cairo Higher Institute (CHI)

Studying Computer Science with a focus on web development and programming fundamentals. Gaining hands-on experience in Front-End development.

## 📁 Skills

### Technical Skills

- HTML5, CSS3, JavaScript (ES6+)
- Responsive Web Design (Flexbox, Grid)
- Bootstrap / Tailwind CSS
- Basic React.js
- Git & GitHub
- REST API integration (basic)
- Problem-solving & debugging

### Soft Skills

- Problem-solving
- Teamwork
- Fast learner
- Time management
- Commitment to deadlines

## 📖 Courses

### Front-End Development (HTML, CSS, Bootstrap)

- Learned how to build structured and responsive web pages
- Practiced layout techniques using Flexbox and Grid
- Built responsive designs using Bootstrap
- Applied clean UI structure and mobile-first principles

### JavaScript Fundamentals (Currently Learning)

- Studying core JavaScript concepts (variables, functions, loops, arrays)
- Practicing DOM manipulation and event handling
- Building small interactive features and mini applications

### React.js (Planned / Next Step)

- Planning to learn React.js for building modern interactive user interfaces
- Interested in component-based architecture and reusable UI design
